# JUNE 2017 HIGHLIGHTS

## Legend of Croc Gold

**From Thursday 29 June at 20:00**

Modern day gold mining is a difficult profession at the best of times, but on an island not far from Papua New Guinea in Southeast Asia the locals have more than the usual problems to contend with. Running through the island's interior is a river that is home not only to one of the world's largest untapped gold reserves, but also to ferocious crocodiles that have claimed the lives of many of the locals who dared to get too close to the water's edge. In order to search out and retrieve the vast wealth of gold lurking beneath the surface, the local miners recruit outsiders who come with a thorough knowledge of mining techniques as well as the equipment and know-how to deal with the river's torrent. But will their experience be enough in the face of large, territorial and hungry crocodiles?

## Yukon Men

**From Monday 19 June at 21:00**

Just 60 miles from the Arctic Circle there lies a frozen village that is part of an unknown America where men hunt and trap to survive, and where the howling wolves are a constant reminder of how isolated its 200 citizens really are. Welcome to Tanana, Alaska. Here, life is harsh: hypothermia and starvation are a constant menace, and it is an epic struggle to find the meat and fur vital to the town's survival. Hungry predators are also a constant threat, stalking hunters and unsuspecting villagers when their prey becomes scarce. Boys grow into men quickly to help the family survive, and father-son bonding and tensions take on a new meaning in this environment. Each changing season brings new struggles, new threats and new dangers, yet, against the odds, the men overcome daily obstacles by sticking together. As the series returns, these extraordinary characters once more risk their lives to feed their families and protect their traditions.

# JUNE 2017 HIGHLIGHTS

## Deadliest Catch

**From Sunday 11 June at 21:00**

It's the deadliest job on earth: crab fishing off the Alaska coast on the icy Bering Sea. This season, it's the dawn of new beginnings as Wild Bill sinks all of his money into a new boat as well as bittersweet endings as the Hillstrand brothers mark their final season. Sig Hansen struggles to balance health and wealth while young captains Jake and Sean Dwyer fight to keep their place in the fleet. Temperatures in the Bering Sea have risen 4 degrees in the last year alone - 50 times the global average. Consequently, the crabs have vanished, panicking the fleet and sparking a gruelling hunt into uncharted territory to save their way of life. On the Northwestern, Captain Sig braces for the worst as he returns after a major heart attack. After a tough season, a meaner, leaner and sober Keith Colburn arrives to take the reins. With quotas slashed, Sean fights to preserve the legacy of the father he lost too soon, and Jake Anderson's job is on the line after a dismal last season.

## Street Outlaws (Vs. Fast N' Loud Mega Race)
